Beloved students,

I welcome all of you to P. N. Institute and warmly wish success to each and everyone of you. And though I would sincerely hope that all of you achieve the goals that you have set and fulfill your dreams for which you've spent sleepless nights, what I mean by 'success' is something altogether different.

To reach destination one must start walking and if the journey is difficult then stubbornness is the key. As a teacher, I have realized over the past years that success requires hard work and proper guidance. One must be able to draw a delimitation line among what to study and what not to. The efforts put by you will be the magnitude and our guidance will be the direction to reach your destination.

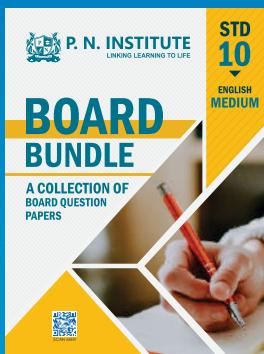

It's important to note at this moment in time that the changing pattern of higher level examinations such as JEE/NEET, GUJCET e.t.c. will have several new challenges to answer and an accordant approach will be required.

What makes P. N. Institute so special is that we believe that truth can be arrived at only through hard work. I can assure you that joining us will be one of the most revered decisions of your life. P. N. Institute is a place where you will be challenged to achieve your potential, find support as you shape up your future. I ensure that no stone will remain unturned in the venture to ensure you a great career ahead. May you fly high in life & success be with you always.
